Art. no. 54573

Page 1 of 1

Technology

- Solid lock body made of TITALIUM™ aluminum alloy: light, but secure
- Shackle made of hardened steel with NANO PROTECT™ coating for extra corrosion resistance
- Available keyed alike (several locks with the same key)
- Ideal alternative to brass padlocks

Operation and use

- TITALIUM™ padlocks, from security specialist ABUS, represent a new dimension in security. The TITALIUM™ material is a special aluminum alloy that uniquely combines a high level of strength with lightness. The 64TI can be used both in the private and commercial sector for locking bags, suitcases, cash boxes, chains, doors, gates, cabinets, etc. The special hardened steel shackle is NANO PROTECT™coated for extra corrosion resistance (from size 30 up).
