CL4210

**Tubular Latch**

Outside lever turns freely without operating the latchbolt. When a valid code is entered and the Blue LED lights up, the lever will retract the latchbolt. When the door closes the spring latch will automatically lock the door. The key will open the door for management functions. The key may be used to set the lock into Code Free mode so that anyone can open the door without using a code.

**OPTIONS**

**Latch Options:**

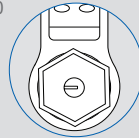

2 latch options: 2<sup>3</sup>/<sub>8</sub>" backset requires 1" hole, 3<sup>1</sup>/<sub>4</sub>" minimum door stile. 2<sup>3</sup>/<sub>4</sub>" backset, requires 1" hole, 3<sup>5</sup>/<sub>8</sub>" minimum door stile.

**Key Override:**

The key will open the door on all locks for management functions.

**Handle Options:**

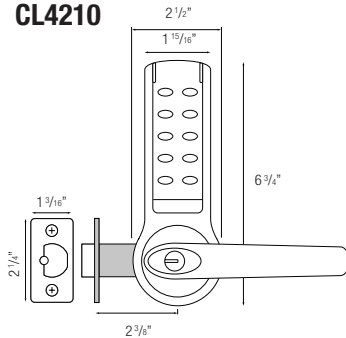

Lever or knob handles available.
